

Holograms for Safety in Sport Gear

Brand Protection & Digitalization

① GarmenTrust: Sewable Holograms

We have developed GarmenTrust as innovative technology to embed holograms into various materials. The tamper-proof sewable holograms are washable up to 60°C/140°F and designed for high endurance.

② Hologram Stickers

3D AG's customizable holograms are implemented worldwide for product authentication with high-end designs creating powerful brand identity.

③ Smart Labels Features

Combinations of features enable holograms as smart gateway to digitalization - Unique serialisation, QR codes, NFC, and more.
